AUTHOR INDEX

VOLUME 37 NUMBERS 1–12

A

Aalto-Setälä, Katriina, Peter H. Weinstock, Charles L. Bisgaier, Lin Wu, Jonathan D. Smith, and **Jan L. Breslow.** Further characterization of the metabolic properties of triglyceride-rich lipoproteins from human and mouse apoC-III transgenic mice 1802

Abrahamson, Dale R. See *Dashti, Franklin, and Abrahamson* 810

Acar, Jasmin. See *Feussner et al.* 1632

Agellon, Luis B. See *Kotake et al.* 599

—— See *Walkey et al.* 2341

Aguilar-Salinas, Carlos A. See *Parhofer et al.* 844

Ahle, Susanne. See *Krapp et al.* 926

Akino, Toyoaki. See *Tsuchihashi et al.* 2136

Alaupovic, P. See *Bijvoet et al.* 640

Albers, John J., Hal Kennedy, and **Santica M. Marcovina.** Evidence that Lp[a] contains one molecule of apo[a] and one molecule of apoB: evaluation of amino acid analysis data 192

——. See *Marcovina et al.* 2659

Alexandre, Marie-Cecile. See *Lespine et al.* 2492

Ali, Shaukat, and **Robert Bittman.** Differential scanning calorimetry study of the influence of phospholipid analogs with a carbonyl-terminated *sn*-2 chain on the interdigitated phases formed by 1-stearoyl-2-capryl-*sn*-glycero-3-phosphatidylcholine (C18:C10-PC) 2305

Allan, Charles M., and **John M. Taylor.** Expression of a novel human apolipoprotein (apoC-IV) causes hypertriglyceridemia in transgenic mice 1510

Allen, Bertha. See *Norman et al.* 1372

Almeida, Leonor M. See *Vieira et al.* 2715

Alvarez, J. J., A. Montelongo, A. Iglesias, M. A. Lasunción, and **E. Herrera.** Longitudinal study on lipoprotein profile, high density lipoprotein subclass, and postheparin lipases during gestation in women 299

Anantharamaiah, G. M. See *Chung et al.* 1099

Andemariam, Biree. See *Underwood et al.* 1556

Anderson, Richard A. See *Miller et al.* 551

Angelin, Bo. See *Niemeier et al.* 1733

Antikainen, Marjatta. See *Knudsen et al.* 825

——. See *Syvänne et al.* 727

Arai, Takeshi, Shizuya Yamashita, Naohiko Sakai, Ken-ichi Hirano, Sugako Okada, Masato Ishigami, Takao Maruyama, Mitsukazu Yamane, Hitoshi Kobayashi, Shuichi Nozaki, Tohru Funahashi, Kaoru Kameda-Takemura, Norimichi Nakajima, and **Yuji Matsuzawa.** A novel nonsense mutation (G181X) in the human cholesteryl ester transfer protein gene in Japanese hyperalphalipoproteinemic subjects 2145

Arduini, Arduino, Alessandro Peschechera, Secondo Dottori, Anna Floriana Sciarroni, Federico Serafini, and **Menotti Calvani.** High performance liquid chromatography of long-chain acylcarnitine and phospholipids in fatty acid turnover studies 684

Arias, Irwin M. See *Nies, Gatmaitan, and Arias* 1125

Armand, M. See *Borel et al.* 250

Arveiler, Dominique. See *Luc et al.* 508

Aslanidis, Charalampos. See *Ries et al.* 1761

Assmann, Gerd. See *Contacos et al.* 35

Atger, Veronique. See *Fournier et al.* 1704

Athias, Anne. See *Masson, Athias, and Lagrost* 1579

——. See *Viens et al.* 2179

Atmeh, Ragheb F., and **Horst Robenek.** Measurement of small high density lipoprotein subclass by improved immunoblotting technique 2461

Auwerx, Johan. See *Casaroli-Marano et al.* 1037

——. See *Schoonjans, Staels, and Auwerx* 907

Avci, H. See *Streicher et al.* 2599

Avigan, J. See *Watkins et al.* 2288

Ayyad, Nariman. See *Mikami et al.* 1189

Azais-Braesco, V. See *Borel et al.* 250

Azhar, Salman. See *Kraemer et al.* 237

B

Baatz, John E. See *Wang et al.* 1749

Bach, André C., Yves Ingenbleek, and **Anny Frey.** The usefulness of dietary medium-chain triglycerides in body weight control: fact or fancy? 708

Bagdade, J. D., M. C. Ritter, H. Lithell, D. Bassett, F. Mailly, P. Talmud, and **M. R. Hayden.** Reduced cholesteryl ester transfer in plasma of patients with lipoprotein lipase deficiency 1696

Bajaj, Rohini S. See *Heuman, Bajaj, and Lin* 562

Ballarini, Giorgia. See *Tarugi et al.* 493

Banka, Carole L. See *Curtiss and Banka* 884

Bao, Yongping, and **Gary Williamson.** Metabolism of hydroperoxy phospholipids in human hepatoma HepG2 cells 2351

Barbaras, Ronald. See *Vieu et al.* 1153

Barbe, Pierre. See *Tavernier et al.* 87

Barceló, Ana. See *Buesa et al.* 2420

Bard, Jean-Marie. See *Luc et al.* 508

——. See *Li et al.* 1886

Barger, Steven W. See *Toborek et al.* 123

Barnard, M. L. See *Bell et al.* 1664

Barozzini, M. See *Garuti et al.* 662

——. See *Garuti et al.* 1459

Barrett, P. Hugh R. See *Parhofer et al.* 844

——. See *Parhofer et al.* 2383

Barter, Philip J. See *Clay and Barter* 1722

——. See *Liang, Rye, and Barter* 1962

Barve, Shirish. See *Toborek et al.* 123

Bassett, D. See *Bagdade et al.* 1696

Batta, Ashok K. See *Honda et al.* 2433

——. See *Salen et al.* 1169

Bax, Wim. See *Groener, Bax, and Poorthuis* 2271

Bayliss, Jayne D. See *Leiper et al.* 2215

Beckman, Kaye. See *Singh, Beckman, and Poulos* 2616

Bedford, Dorothy. See *Björkegren et al.* 76

Beg, Obaid U. See *Rouis et al.* 651

Beisiegel, Ulrike. See *Krapp et al.* 926

Zolfaghari, Reza. See *Rosales et al.* 962

SUBJECT INDEX

VOLUME 37 NUMBERS 1–12

A

Aberrantly spliced mRNAs: Of the HL gene 2420
Abetalipoproteinemia: Translocation of apoB across endoplasmic reticulum in 1309
Absorption: Of cholesterol, adaptation after proximal resection of porcine small intestine 1766
ACAT: *see* **Acyl-CoA:cholesterol acyltransferase**
3-*O*-Acetyl ceramide: Synthesis of GM3 containing 2136
Acid sphingolipid hydrolase: Activities in situ 2525
ACTH: Effect of on mobilization of fatty acids from adipose tissue 290
Acute inflammation: Effects of, on plasma retinol and retinol-binding protein in vitamin A-sufficient rats 962
Acute phase response: HDL content and composition in 2662
Acute phase serum amyloid A: Binding and transport of cholesterol in aortic smooth muscle and HepG2 cells 2109
Acyl-CoA synthetase, long-chain: Activation of phytanic acid by, in rat liver peroxisomes 2288
Acyl-CoA:cholesterol acyltransferase: Hepatic, and lipoprotein synthesis 1
Acylcarnitine, long-chain: HPLC of 684
Adaptation: Of cholesterol absorption, after proximal resection of porcine small intestine 1766
Adipocytes
Decrease in LDL receptor expression in, by isoproterenol 237
Degradation of LPL by 2439
Human, adrenergic induction of uncoupling protein mRNA 1907
Human subcutaneous, expression of β3-receptors in 87
LPL synthesis in 2332
Adipose tissue
Brown, regulation of LPL activity in 1685
Differential mobilization of fatty acids from 290
Effects of streptozotocin-induced diabetes on LDL receptor expression in 229
Release of fatty acids from, after an overnight fast 1842
Adrenoceptor agonists: Increase in uncoupling protein mRNA in human adipocytes by 1907
β3-Adrenoceptors: With low lipolytic action, expression in human subcutaneous white adipocytes 87
Adsorption
Of bile salts to membranes 562
Of pulmonary surfactant, roles of hydrophobic constituents 790
Aggregation: Of modified LDL 2638
Albumin: Binding of ethyl oleate to 1449
Alkylacyl phospholipid species: Quantitation by UV absorption measurements 2450
Alkyldiacyl glycerols, fluorogenic: Synthesis of 868
Allelic variation: In the gene encoding CETP 1743
Alternative splicing: Hepatic lipase deficiency as a result of 1213
Amino acid analysis: Of Lp[a] 192
Amino terminal sequence: Of elastase-generated fragments of apo[a] and Lp[a] 1786
Amphipathic helical peptides: Effect of on metabolic and functional properties of VLDL 1099
Amphipathic helix: Interaction with VLDL 1099
Amphipaths: Effect on LDL gene expression 534
Animal model: Of intrahepatic cholestasis 1086
ANIT: *see* **α-Naphthylisothiocyanate**
Anti-herpes simplex virus activity: Of n-docosanol 2167
Antioxidant activity: Of α-tocopherol in plasma and LDL 1436
Antioxidant screening test: For LDL lipids 853
Antioxidants
Correlation between plasma and LDL contents 1936
Isolation of LDL free of 2715
Tissue lipophilic, simultaneous determination of 893
Aortic smooth muscle cells: Transport of cholesterol into by acute phase serum amyloid A 2109
Apheresis: LDL, effect on metabolic parameteres of apoB in heterozygous FH 2383
APOBEC-1: *see* Apolipoprotein B mRNA editing enzyme catalytic polypeptide 1
Apolipoprotein(s)
Alterations before age 40 in heterozyotes for LPL deficiency 640
Displacement from VLDL by synthetic amphipathic helical peptides 1099
Effect of acute phase response on levels of 2662
Gender differences in 1886
In the human cornea 1849
Apolipoprotein [a]
Baboon, identification of gene promoter sequences 2324
Elastase fragments of 1786
Inhibition of secretion of, by neomycin 2055
Phenotypes, distribution in black and white Americans 2569
Polymorphs, differences between black and white Americans 2569
Recombinant form, interaction with human fibroblasts and HepG2 cells 518
mRNA, expression in cynomolgus monkey liver and extrahepatic tissues 2029
To apoB ratio in Lp[a] 192
Apolipoprotein A-I
Antibodies specific for linear epitopes 884
Baculoviral expression system for proapoA-I 673
Crosslinking of 1012
Distribution in plasma, effect of fat ingestion on 2461
Epitopes involved in activation of LCAT, localization of 2557
Gene polymorphisms in FCH 309
Human, transgenic rats, efflux of cell cholesterol to whole serum 1704
In HDL particles assembled extracellularly in cell culture 1076
In reconstituted HDL 1962
Lipid-free, formation of new HDL particles from 1722
Lipoproteins containing, effect of ethanol on synthesis and secretion in HepG2 cells 810
Mediation of lipid efflux by 2510
Plasma, increase of by monomethylethanolamine in rats 2296

Promoter activity. increase by glucocorticoid 2232
Synthesis and secretion in chick liver 493
Transgenes in mice 1268
Transgenic rats, experimental nephrosis in 1113
Apolipoprotein A-I/C-III/A-IV gene cluster: In FCH 136
Apolipoprotein A-II: Kinetics in humans 399
Apolipoprotein B
And mouse embryonic development 347
Conformational changes in 1924
Effect of atorvastatin on secretion rate 2372
Effects of FCH on 136
Inhibition of secretion of, in HepG2 cells 1468
Lipoproteins containing, effect of ethanol on synthesis and secretion in HepG2 cells 810
Lipoproteins containing, effect of growth hormone on assembly of 275
mRNA expression in mouse embryos 347
Plasma, reduction of by monomethylethanolamine in rats 2296
Regulation of secretion from HepG2 cells 1198
Secretion by the liver, role of cholesterol in regulation of 439
To apo[a] ratio in Lp[a] 192
Translocation 2215
Translocation across the endoplasmic reticulum in abetalipoproteinemia 1309
Truncated, secretion rate of 844
VLDL, kinetic studies using stable isotopes 76
Apolipoprotein B gene: Function of the nuclear matrix association regions in transgenic mice 2117
Apolipoprotein B mRNA editing enzyme catalytic polypeptide 1
Hepatic gene transfer of 2001
Apolipoprotein B-100
Endogenous, translocation of 2215
Heterozygous familial defective 2074
Lipoproteins containing, secretion from HepG2 cells 1
Role of intramolecular disulfide bonds in 408
Secretion rate, measurement in a single mouse 210
Synthesis and secretion in chick liver 493
Translocation across the endoplasmic reticulum membrane 2202
Apolipoprotein B-48: Secretion rate, measurement in a single mouse 210
Apolipoprotein C: Modulation of binding of human TGLP to heparan sulfate by 754
Apolipoprotein C-II: Depletion in individuals with a mutation in the promoter region of the apoC-II gene 2599
Apolipoprotein C-II gene: Mutation in the promotor region, in individuals with chylomicronemia 2599
Apolipoprotein C-III
Effects of FCH on 136
In apoB- and non-apoB-containing lipoproteins, contrasting risk for myocardial infarction 508
Transgenic mice, metabolic properties of triglyceride-rich lipoproteins 1802
Apolipoprotein C-IV: Transgenic mice 1510
Apolipoprotein E
Effect on lipid uptake by macrophages in LPL deficiency during pregnancy 972
In apoB- and non-apoB-containing lipoproteins, contrasting risk for myocardial infarction 508
Modulation of binding of human TGLP to heparan sulfate by 754
Regulation of receptor binding of VLDL by, in HepG2 cells 1316
Role in uptake of chylomicron remnants in vitro 1733
VLDL lacking in, isolation and characterization of two distinct species 1897
Apolipoprotein E5
(Glu→Lys), binding to cell surface proteoglycans 1632
Uptake and lysosomal degradation in cultured fibroblasts 1632
Apolipoprotein H: Two-step isolation method 902
Apolipoprotein-mediated removal of cellular cholesterol and phospholipids: Review article 0718
Aqueous diffusion barrier: Effect of on uptake and transport of polychlorinated biphenyls in Caco-2 cells 950
Arachidonic acid
Metabolism in human neutrophils, effect of TNF-α on 1234
Trans isomer, effects on platelet aggregation and eicosanoid production 2244
Arterial vasomotor regulation: Effects of sphingomyelinase and sphingosine on 1601
Atherogenesis: Central roles of LPL and lipolysis in 693
Atorvastatin: Hypocholesterolemic actions of in the guinea pig 2372
11,11-Azistearate: Photoaffinity labeling with 739

B

Baculovirus-mediated cell expression: Of apoA-I 673
Basic proteins: Inhibition of lipases by protamine 1481
BBMV: *see* **Brush border membrane vesicles**
Benzoolysis: Of phosphatidylcholines 1224
Beta oxidation activity: For bile acid biosynthesis in mitochondria 2550
BIBX-79: An inhibitor of 2,3-oxidosqualene cyclase 148
Bilayers, interdigitated: Formed by 1-stearoyl-2-capryl-*sn*-glycerol-3-phosphatidylcholine 2305
Bilayers, phosphatidylcholine: Lipid composition and molecular mobility, remodeling by monoacylglycerols 764
Bile acids
Δ^{22}, Formation in rat liver peroxisomes 540
Hepatic transformation of 23(R)-hydroxychenodeoxycholic acid 98
Lack of regulation of 7α-hydroxylase by, in rat hepatoma L35 cells 588
Sulfonate analogues of ursodeoxycholic acid 1181
Study of transport using norcholansulfonate 1045
Use of [22,23-^{3}H]cholic acid in metabolic studies in humans 431
Bile acid 7α-dehydratase: From a *Eubacterium sp.*, expression and characterization in *E. coli* 1258
Bile acid 7α-dehydroxylation: Bacteria 1258
Bile acid analogues: 15α-Hydroxylation of 3α,7α-dihydroxy-25,26-bishomo-5β-cholane-26-sulfonate in the hamster 1189
Bile acid biosynthesis: In mitochondria 2550
Bile acid metabolism 98
By clofibrate-treated rats 540
Bile acid synthesis: 7α-Hydroxylation of intermediates in the sterol 27-hydoxylase metabolic pathway 1356
Bile salt taurine conjugates: Adsorption to lecithin-cholesterol membranes 562

Bile salt-membrane adsorption 562
Bile salts: In gallbladder biles 2539
Biliary cholesterol crystallization 2539
Biliary lipid secretion: Effect of sulfonate analogues of ursodeoxycholic acid on 1181
Biliary secretion: Of phospholipid and cholesterol 1065
Binding
Of 25-hydroxycholesterol to liver cytosolic proteins, effect of LY295427 2586
Of apoE5 to cell surface proteoglycans 1632
Of elastase-generated fragments of apo[a] and Lp[a] to fibrinogen and fibronectin 1786
Binding affinity: Of LDL in subjects with moderate hypercholesterolemia 1646
Binding properties: Of VLDL subfractions on the LDL receptor 1897
Binding studies: With hydrophobic amines 1556
Biological emulsions: Carotenoids in 250
Biosynthesis: Of *Spodoptera littoralis* sex pheromone 1503
Body weight control: Usefulness of dietary MCT in 708
Brain development: Lack of role of LDL in process of sterol acquisition 1953
Brain, sheep: Lack of functional LDL receptors in 1953
Brown adipose tissue
Dormant, reactivation in humans 1907
Regulation of LPL activity in 1685
Brush border membrane models: In the study of small intestinal sterol absorption 2405
Brush border membrane vesicles: Absorption of sterols by 2405

C

Caco-2 cells
Fatty acid uptake by 336
Uptake and transport of polychlorinated biphenyls by 950
CAD: *see* **Coronary artery disease**
Calcium bilirubinates: Lack of effect on cholesterol crystallization 2539
Canalicular membrane vesicles: ATP-dependent translocation of phosphatidylcholine in 1125
Candidate genes: Cholesterol homeostasis, chromosomal organization 1406
Carboxyl-terminal truncation: Effect of on LCAT activity 1609
Carboxylester lipase: Inhibition by protamine 1481
Carnitine acyltransferases: In rat liver peroxisomes 2616
Carnitine palmitoyltransferase 2616
β-Carotene: In vivo biosynthesis of retinoic acid from, in ferret intestine 482
Carotenoids
Correlation between plasma and LDL contents 1936
In biological emulsions 250
Catabolic rate: Of dense LDL, relationship to sialic acid content 1625
Cell cholesterol: Efflux to whole serum, studies in apoA-I transgenic rats 1704
Cell surface association: Of apo[a] 2055
Cell surface proteoglycans: Binding of apoE5 to 1632
Cellular cholesterol: Apolipoprotein-mediated removal of 2473
Cellular cholesterol efflux: Apolipoprotein-mediated 2510
Cellular injury: Role of multiple oxidized LDL lipids in 2018
Cellular oxysterol levels: Modulation by LY295427, a hypocholesterolemic agent 2586
Cellular phospholipid: Apolipoprotein-mediated removal of 2473
Cellular phospholipid efflux: Apolipoprotein-mediated 2510
Cellular protein phosphorylation: Effects on scavenger receptor 574
Cellular sterols: Modelling of trafficking 2041
Cellular uptake: Of esterified oxysterols 168
Central nervous system: Cholesterol concentration and rates of LDL clearance in 1953
Ceramidase: In situ assay of 2525
Ceramide mixtures: Lateral hydrocarbon packing of 999
Cerebrotendinous xanthomatosis
Caused by a mutation in the cytochrome $P450_{27}$ gene 631
Caused by mutations of the sterol-27-hydroxylase gene 1459
Partial deletion of gene encoding sterol 27-hydroxylase 662
Urinary excretion of mevalonic acid in 2193
CETP: *see* **Cholesteryl ester transfer protein**
Cholate transport: Study of, using 3α,7α,12α-trihydroxy-24-nor-5β-cholan-23-sulfonate 1045
Cholesta-5,7,9(11)-trien-3β-ol: In plasma of patients with Smith-Lemli-Opitz syndrome 2280
Cholestasis, intrahepatic: Abnormal lipoproteins in 1086
Cholestatic pregnancy: Hyperlipidemia in, mechanisms of 2687
Cholesterol
Newly synthesized in the fetal hamster 1246
Accumulation in the human cornea 1849
Biliary secretion of 1065
Binding and transport of by serum amyloid A 2109
Control of cellular levels of 1712
Effect of on secretion of CETP by a human liposarcoma cell line 1162
Effect of, on incorporation of MCT into phospholipid bilayers 773
Efflux to whole serum, studies in apoA-I transgenic rats 1704
Factors affecting crystallization of 877
Function in stratum corneum lipids 361
Intracellular metabolism and trafficking in macrophages 2041
Lysosomal, cell-free transfer to phospholipid vesicles 54
Origin in the fetal Golden Syrian hamster 1246
Role of in regulating apoB secretion by the liver 439
Unesterified, hepatic transport and secretion traced by sitostanol 15
Cholesterol 27-hydroxylation: In HepG2 cells, effects of cyclosporin on 179
Cholesterol 7-hydroxylase: Resistance to bile acid repression of in rat hepatoma L35 cells 588
Cholesterol 7α-hydroxylase gene: Transcriptional regulation in HepG2 cells 1831
Cholesterol 7α-hydroxylase mRNA: Effect of endotoxin, TNF, and IL-1 on levels and activity 223
Cholesterol absorption
After proximal resection of porcine small intestine 1766
By BBMV 2405
Inhibition of, effects on cholesterol and lipoprotein metabolism in hypercholesterolemic men with NIDDM 1776
Cholesterol balance: Effect of ethinyl estradiol on 1812
Cholesterol crystallization

From human gallbladder bile 2550
Pathways in model bile 606
Vesicular assay to study 877
Cholesterol efflux
Apolipoprotein-mediated, need for functional Golgi apparatus 2510
In mice expressing human CETP and apoA-I transgenes 1268
Cholesterol feeding: Effect on hepatic lipoprotein production in the chick 493
Cholesterol homeostasis
Genetic regulation 1408
In HepG2 cells 148
Modulated by amphiphiles at transcriptional and post-transcriptional loci 534
Cholesterol metabolism
Cellular, mutations affecting 1387
Hypocholesterolemic actions of atorvastatin 2372
Cholesterol oxidation products 320
Physical effects on lipid membranes 1488
Cholesterol synthesis
Effect of ethinyl estradiol on 1812
In HepG2 cells, effects of a 2,3-oxidosqualene cyclase inhibitor on 148
Inhibition of, effects on cholesterol and lipoprotein metabolism in hypercholesterolemic men with NIDDM 1776
In pregnancy and lactation 2687
In the Smith-Lemli-Opitz syndrome 1169
Tissue-specific coordinate regulation of enzymes of 2502
Urinary excretion of mevalonic acid as an indication of 2193
Cholesterol transport
ApoA-I mediated 2473
Intracellular, analysis of hydrophobic amine inhibition of 1556
Plasma membrane to endoplasmic reticulum 1556
Cholesterol turnover: In the mature central nervous system 1953
Cholesterol-fed rabbits: Hepatic LCAT mRNA in 1616
Cholesteryl ester storage disease: Lysosomal acid lipase gene mutation 1761
Cholesteryl ester synthesis: Cytoplasmic, by smooth muscle cells of synthetic phenotype 2155
Cholesteryl ester transfer: Reduced, in subjects with LPL deficiency 1696
Cholesteryl ester transfer activity: Modulation by the phase transition of the lipoprotein core 1915
Cholesteryl ester transfer protein
Effect of on apoA-I in preβ-HDL 1268
Genetic determinants of 1743
Human, structure-function relationships 22
Purification and measurement of activity of 1579
Rabbit plasma, expression and secretion of, by *Pichia pastoris* 599
Secretion in response to cholesterol, in a human liposarcoma cell line 1162
Cholesteryl ester transfer protein activity: Electronegativity of HDL_3 as a determinant of 1579
Cholesteryl ester transfer protein deficiency 2065
Cholesteryl ester transfer protein gene
Exon 10 skipping in 2065
Nonsense mutation in, in hyperalphalipoproteinemic subjects 2145
Cholesteryl ester, intracellular: Effect on synthesis and secretion of apoB-100 and apoA-I in chick liver 493
Cholesteryl esters
Effect of, on incorporation of MCT into phospholipid bilayers 773
In lipoprotein core, effect of physical state on transfer 1915
Cholesteryl oleate: Metabolic fate of oleic acid derived from, by lysosomal degradation in human fibroblasts 2271
Cholesteryl oleyl ether: Absorption by BBMV and enterocytes 2405
Cholic acid: Biologically stable tracer of cholic acid during enterohepatic cycling 431
Chromatography, high performance liquid
Isolation of plant sulfoquinovosyldiacylglycerols by 1372
Microbore, quantitation of gangliosides by 1823
Of long-chain acylcarnitine and phospholipids 684
Of retinoids in ferret intestinal mucosa 482
Chromatography, high pressure liquid: Simultaneous determination of tissue lipophilic antioxidants by 893
Chylomicron(s)
Effects of particle size and number on the plasma clearance of 2696
Metabolism and turnover in rats 1022
Chylomicron remnant removal: Roles of LDL receptor, LDL receptor-like protein, and hepatic lipase 197
Chylomicron remnants
Effects of particle size and number on the plasma clearance of 2696
In vitro mediation of uptake by the VLDL receptor 1733
Chylomicron triglyceride: Postprandial response in carriers of an LPL mutation 1675
Chylomicron uptake: Mediation by hepatic lipase 926
Chylomicronemia: Identification of nucleotide substitution in the promoter region of the apoC-II gene 2599
Ciprofibrate: Effect on rat liver epoxide hydrolase 159
Clearance
Of chylomicrons and remnants 2696
Of LDL precursors in patients with familial defective apoB-100 2074
Clofibrate
Effect of on bile acid metabolism in rats 540
Regulation of malic enzyme responsiveness to triiodothyronine 2088
Coding sequence: Of apoB-100 2215
Coenzyme Q10
Determination of 67
Ratio of reduced and oxidized forms as a measure of oxidative stress 67
Compartmental modelling: Of chylomicron turnover in rats 1022
Conformational changes: In LDL subspecies 1924
Conserved homologies: Between mouse and human chromosomes 1406
Cornea: Cholesterol accumulation in 1849
Coronary artery disease: Regulatory mutations in the LPL gene in patients with 2627
CP-10447: Inhibition of apoB and triglyceride secretion in HepG2 cells by 1468
Crosslinking of apolipoprotein A-I: By copper-oxidized LDL 1012
Croton oil: Effect of on lipid and apolipoprotein levels 2662
CTX: *see* **Cerebrotendinous xanthomatosis**

Cyclic-AMP: And LDL receptors 237
Cyclosporin: Effects on cholesterol 27-hydroxylation and LDL receptor activity in HepG2 cells 179
CYP27 gene
CTX caused by a mutation in 631
CTX caused by partial rearrangement of 662
Gene encoding human sterol-27-hydroxylase 1459
CYP7A gene: Transcriptional regulation in HepG2 cells 1831
Cytochrome $P450_{27}$ gene: CTX caused by a mutation in 631
Cytofluorometry: Quantitative determination of cellular lipids in *Paramecium primaurelia* by 1207
Cytotoxic response: Of NK cells, effect of LPL 1987

D

Dehydrocholesterol reductase inhibition: Serum sterol profiling in 1325
Deoxycholic acid: Formation from [22,23-^{3}H]cholic acid 431
Deoxystreptamine antibiotics: Inhibition of secretion of apo[a] by 2055
Dephosphorylation: Of diacylglycerophosphocholines by benzoolysis 1224
(Z)-9 Desaturase: Inhibition by methylenehexadecenoic acids 1503
Desmosterol, serum: In pregnancy 2687
Diabetes: Sialic acid/apoB ratio in LDL 1625
Diabetes mellitus, non-insulin-dependent: Lipoprotein subclasses in 1569
Diabetes, streptozotocin-induced: Effects of on LDL receptor expression in rat adipose tissue 229
Diacyl phospholipid species: Quantitation by UV absorption measurements 2450
Diacylglycerol(s)
In HDL, accessibility to lipase 1153
In HDL, identification and quantitation 1153
Molecular species in rat thymocytes 2098
Diacylglycerol-rich lipophorin: Sphinx moth fat body, lipid transfer to 1144
Diacylglycerophosphocholines: Benzoolysis of 1224
Dietary lipids, oxidized: In serum VLDL 420
Differential scanning calorimetry
In study of mixing behavior of phosphatidylcholines in interdigitated bilayers 2305
In study of stratum corneum lipids 361
3α,7α-Dihydroxy-25,26-bishomo-5β-cholane-26-sulfonate: 15α-Hydroxylation in the hamster 1189
DiI: *see* **3,3'-Dioctadecylindocarbocyanine**
Dimeric lipoprotein lipase: Bound to triglyceride-rich lipoprotein 2394
3,3'-Dioctadecylindocarbocyanine: Labeling of LDL with 1377
Dipalmitoylphosphatidylcholine: Degradation by granular pneumocytes 1057
Disulfide bond formation, intramolecular: Role of in assembly and secretion of apoB-100-containing lipoproteins 408
Dithiothreitol: Treatment of HepG2 cells with, effect of on apoB-100 408
DNA response elements: That confer responsiveness to clofibrate 2088
cDNA: LCAT, cloning of 1616
Docosahexaenoate: Recycling into saturated and monounsaturated fatty acids in monkeys 2675
n-Docosanol
Anti-herpes simplex virus activity 2167
Metabolism of 2167
Double-fluorescence staining: Measurement of LDL uptake by, in human lymphocytes 1363
DPPC: *see* Dipalmitoylphosphatidylcholine
Dyslipidemia: Potential role of regulatory mutations in the LPL gene 2627

E

ECTIM Study: ApoC-III and apoE in 508
Efflux: Of cell cholesterol to whole serum 1704
Eicosanoid production: Effect of a *trans* isomer of arachidonic acid on 2244
Elastase: Fragments of apo[a] and Lp[a] generated by 1786
Electron microscopy: Of nascent HDL complexes 1076
Electron spin resonance: Physical effects of oxysterol on lipid membranes investigated by 1488
Electrophoresis, gradient gel: Determination of particle size by gradient gel electrophoresis 1655
Embryonic development: And apoB 347
Endogenous labeling with stable isotopes: In measuring apoA-II kinetics in humans 399
Endoplasmic reticulum: Translocation of apoB across, in abetalipoproteinemia 1309
Endothelial dysfunction: Linoleic acid and TNF-α mediated 123
Endotoxin: Decrease in cholesterol 7α-hydroxylase mRNA levels and activity by 223
Enterocytes: Intact, cholesterol absorption by 2405
Enterohepatic cycling: Of 23(R)-hydroxychenodeoxycholic acid 98
Enzyme activity: Of LCAT 551
EPA: *see* **Eicosapentaenoic acid**
Epitope mapping: Of CETP 22
Epitopes: ApoA-I, involved in LCAT activation 2557
Epoxide hydrolase: In peroxisomes 159
Ergosterol: Substrate for measurement of 3β-hydroxysteroid Δ^7-reductase activity in fibroblasts 2433
Erythrocytes: Fatty acid incorporation into 684
Esterification of oxysterols: Effects on distribution and cellular uptake 168
Ethanol
Effect of on synthesis and secretion of apoA-I and apoB lipoproteins in HepG2 cells 810
Fatty acids synthesized from 262
Ethinyl estradiol: Effect on cholesterol balance in liver and extrahepatic tissues 1812
Ethyl oleate: Binding to LDL, phospholipid vesicles, and albumin 1449
***Eubacterium sp.* strain VPI 12708:** Bile acid 7α-dehydratase, expression and characterization in *E. coli* 1258
Evolutionary relationships: Gene families 1406
Excentric cleavage pathway: In in vivo biosynthesis of retinoic acid from β-carotene 482
Experimental nephrosis: In apoA-I transgenic rats 1113
Expression
Of human apoC-IV in transgenic mice 1510
Of human recombinant proapoA-I in *E. coli* 1519
Of rabbit CETP in *Pichia pastoris* 599
Of transgenic constructs in cell culture 2117

Of β3-adrenoceptors in human subcutaneous adipocytes 87
Extracellular lipid metabolism: PPAR and the regulation of 907

F

Familial combined hyperlipidemia
ApoA-I/C-III/A-IV gene cluster in 136
Regulatory mutations in the LPL gene in patients with 2627
Familial combined hyperlipoproteinemia: ApoA-I polymorphisms and LPL gene mutations in 309
Familial defective apolipoprotein B-100: Clearance of LDL precursors in patients with 2074
Familial homozygous hypercholesterolemia: Characterization of mutations in the LDL receptor gene in 368
Familial hypercholesterolemia: Effects of LDL-apheresis on metabolism of apoB in 2383
Familial lipoprotein lipase deficiency: Point mutations in the LPL gene 651
Farnesyl diphosphate synthase: Regulation by SREBP 1712
Fat mobilization: From adipose tissue, after an overnight fast 1842
Fatty acid(s)
Differential mobilization from adipose tissue 290
Effect of on gene expression 907
Effect of on uptake and transport of polychlorinated biphenyls in Caco-2 cells 950
Lipolysis-generated, inhibitors of LDL oxidation 2179
Mobilization in humans 1842
n-3, effects on the NMR profile of plasma lipoproteins 1664
Non-esterified, formation of new HDL particles from, with lipid-free apoA-I 1722
Recycling in monkeys 2675
Triglyceride-derived, recirculation of 1022
Fatty acid binding protein: Modulation of fibroblast membrane sterol kinetic domains by 1862
Fatty acid ethyl esters: In model physiological systems, ^{13}C-NMR of 1449
Fatty acid oxidation 2616
Fatty acid oxidation enzymes, hepatic: Stimulation of activity by α-linolenic acid 448
Fatty acid regulation: Of LDLr protein and mRNA 2310
Fatty acid salt, hepatic: Irreversible inhibition of uptake by photoaffinity labeling with 11,11-azistearate 739
Fatty acid synthesis: Contribution to VLDL triacylglycerols 262
Fatty acid transport 2616
Fatty acid turnover: HPLC of long-chain acylcarnitine and phospholipids in studies of 684
Fatty acid uptake: By Caco-2 human intestinal cells 336
Fatty liver dystrophy mutation 1387
FCH: *see* **Familial combined hyperlipidemia**
FCH: *see* **Familial combined hyperlipoproteinemia**
FCHL: *see* **Familial combined hyperlipidemia**
Fetal development: Origin of cholesterol in the fetal hamster 1246
FH: *see* **Familial hypercholesterolemia**
Fibrates: Effect of on gene expression 907
Fibroblast membranes: Sterol kinetic domains in 1862
Fibroblasts
Interaction with a recombinant form of apo[a] 518
Lysosomal degradation of cholesteryl oleate in 2271
Measurement of 3β-hydroxysteroid Δ^7-reductase activity in, diagnosis of Smith-Lemli-Opitz syndrome 2433
Uptake of lipoprotein in, mediated by LPL 464
Fish eye disease: Molecular defect in the LCAT gene associated with 35
Fish oil: Effect on lipoproteins 1664
Flow cytometry: Method for detection of LDL receptor defects in human T lymphocytes 1377
Fluorescence analysis: Of oxidized phospholipids 2608
Fluorescence depolarization spectroscopy
Physical effects of oxysterol on lipid membranes investigated by 1488
Fluorescence methods: In study of lipophorin structure 2125
Fluorogenic triacylglycerol analogs: Substrates for determination of lipase activities 868
FPP: *see* **Farnesyl diphosphate**
Fractional clearance rate: Of LDL in moderate hypercholesterolemia 1646
Fusion
Of modified LDL 2638

G

Gallbladder bile, human: Cholesterol crystallization from 2539
Ganglioside GM1: Acid and enzymatic hydrolysis of 382
Ganglioside GM3: With a 3-*O*-acetyl ceramide, synthesis and substrate properties 2136
Gangliosides: Quantitation by microbore HPLC 1823
Gemfibrozil: Effect of on levels of Lp[a] in type II hyperlipoproteinemia 1298
Gender: Effect of on plasma lipoprotein subspecies and particle sizes 1886
Gene
ApoC-II, mutation in the promoter region, in individuals with chylomicronemia 2599
CETP, exon 10 skipping in 2065
LCAT, molecular defect associated with fish eye disease 35
LPL, mutations in patients with FCHL and CAD 2627
Gene cluster: Of apoA-I/C-III/A-IV in FCH 136
Gene expression
Of LDL receptor, activation by hepatocyte growth factor 985
Of LPL in brown adipose tissue 1685
Of mdr2 P-glycoprotein 1065
Of murine lysosomal acid lipase 937
Role of PPAR in mediating effects of fibrates and fatty acids on 907
Gene mutation(s)
For hepatic lipase, Leu334→Phe and Thr383→Met 825
For lysosomal acid lipase and Wolman disease 1761
LPL, in FCH 309
Of lipoprotein lipase 727
Gene promoter sequences: LDL receptor protein 2324
Gene structure: Characterization of the murine PEMT2 gene 2341
Gene transfer: Of APOBEC-1 in WHHL rabbits 2001
Gene, lipoprotein lipase: Usefulness in body weight control 727
Genetics: Molecular defect in the LCAT gene 35
Genetic determinants: Of plasma CETP 1743

Genetic mapping: Of mouse genes involved in cholesterol homeostasis 1406
Genetic regulation: Of cholesterol homeostasis 1406
Gestation: In women, longitudinal study of lipoproteins, HDL subclasses, and postheparin lipases 299
Glioma-related ganglioside, *O*-Ac GM3: With a 3-*O*-Ac ceramide, synthesis and substrate property of 2136
Glucocorticoid: Increase of rat apoA-I promoter activity by 2232
Glutathione S-transferase 2351
Glycation: Of LDL, effect of α-tocopherol on 1978
Glycosphingolipids: From normal kidney and in polycystic kidney disease 1334
Glycosylation structure: Of LCAT 551
GM1 ganglioside: Acid and ennzymatic hydrolysis of 382
Golgi apparatus: Need for in apolipoprotein-mediated cellular cholesterol and phospholipid efflux 2510
Growth hormone: And lipoprotein assembly 275

H

Heparan sulfate: Binding of TRLP to, mediated by LPL 754
Heparan sulfate proteoglycans: Turnover by adipocytes 2439
Heparinase: Effect of on degradation of cell surface LPL 2439
Hepatic fatty acid oxidation: Stimulation by dietary α-linolenic acid 448
Hepatic fatty acid salt uptake: Inhibition of by photoaffinity labeling with 11,11-azistearate 739
Hepatic lipase
Mediation of uptake of chylomicons and β-VLDL by 926
Role in chylomicron remnant removal by the liver 197
Hepatic lipase activity: In subjects with hepatic lipase gene mutations 825
Hepatic lipase deficiency: Due to a novel A→G mutation 1213
Hepatic lipase gene: A→G mutation resulting in enzyme deficiency 1213
Hepatic lipase gene mutations: Correlation between hepatic lipase activity and phenotypic expression 825
Hepatic lipoprotein production: In the chick, effect of cholesterol feeding 493
Hepatic metabolism: Of 23(R)-hydroxychenodeoxycholic acid 98
Hepatic microsomal lipids: Effect of atorvastatin on 2372
Hepatic transport: Of sitostanol in the rat 15
Hepatobiliary transport 1045
Hepatocyte cell surface: Retention of apo[a] on 2055
Hepatocyte growth factor: Activation of LDL gene expression in HepG2 cells by 985
Hepatocytes, cultured: Effect of growth hormone on triacylglycerol synthesis 275
Hepatoma cells: Resistance to bile acid repression of cholesterol 7α-hydroxylase in 588
HepG2 cell surface receptors: Regulation of binding of VLDL to, by apoE 1316
HepG2 cells
ApoC-II reporter gene expression in 2599
Cholesterol 27-hydroxylation and LDL receptor activity in, effects of cyclosporin on 179
Inhibition of apoB and triglyceride secretion in 1468
Interaction with a recombinant form of apo[a] 518
LDL receptor gene expression in, activation by hepatocyte growth factor 985
Metabolism of hydroperoxy phospholipids in 2351
Regulation of cholesterol biosynthesis in, effects of a 2,3-oxidosqualene cyclase inhibitor 148
Regulation of secretion of apoB 1198
Secretion of apoB-100-containing lipoproteins from 1
Synthesis and secretion of apoA-I and apoB lipoproteins, effect of ethanol 810
Transcriptional regulation of the human cholesterol 7α-hydroxylase gene in 1831
Transport of cholesterol into by acute phase serum amyloid A 2109
Hereditary 3-hydroxy-3-methylglutaryl coenzyme A lyase deficiency 2420
Herpes simplex virus 2167
Heterozygotes: For LPL deficiency, changes in lipoproteins and apolipoproteins 640
1-*O*-Hexadecyl-*rac*-[2-^{3}H]glycerol-3-phosphorylethanolamine: Chemical synthesis of 2706
High density lipophorin
Interaction with binding site at the fat body 1345
High density lipoprotein
Content and composition in acute phase response 2662
Distribution of apoA-I in, in transgenic mice 1268
HDL_3 electronegativity as a determinant of CETP activity 1579
Identification and quantitation of diacylglycerol in 1153
Mediation by, of cholesterol efflux from cells 2473
Particle distribution, effect of gender and menopausal status 1886
Phospholipids, role in efflux of cell cholesterol to whole serum 1704
Reconstituted from mature and proapoA-I 1519
Reconstituted, remodelling by LCAT 1962
Structural relationships among nascent complexes of 1076
High density lipoprotein particles: Formation from lipid-free apoA-I 1722
High density lipoprotein subclass: Small, measurement by an immunoblotting technique 2461
High density lipoprotein subclasses
During gestation in women 299
In normoglyceridemic relatives of NIDDM patients 1569
High density lipoprotein, recombinant 673
HL: *see* **3-Hydroxy-3-methylglutaryl coenzyme A lyase**
Homocysteine: Effect of on oxidative modification of LDL 1591
HPLC: *see* **Chromatography, high performance liquid**
Hydrolases: Action on GM3 containing an O-acetyl group into the ceramide moiety 2136
7β-Hydroperoxycholesterol: In oxidized LDL, cytotoxicity of 2018
Hydroperoxy phospholipids: Metabolism of in HepG2 cells 2351
Hydrophobic amine inhibition: Of intracellular cholesterol transport 1556
Hydrophobic apoprotein function: Lack of synergy of SP-B and SP-C in interactions with phospholipids 1749
α-Hydroxy bile acid: Hepatic biotransformation of 23(R)-hydroxychenodeoxycholic acid 98
α-Hydroxychenodeoxycholic acid: Metabolism and properties of 98
23(R)-Hydroxychenodeoxycholic acid: Hepatic biotransformation and physicochemical properties of 98
25-Hydroxycholesterol

Binding to liver cytosolic proteins, enhancement by a hypocholesterolemic agent 2586
Esterification in human serum 168
Intracellular metabolism and trafficking in macrophages 2041
27-Hydroxycholesterol: Formation in HepG2 cells, effects of cyclosporin on 179
α-Hydroxylation: Of phytanic acid in peroxisomes 1137
15α-Hydroxylation: Of 3α,7α-dihydroxy-25,26-bishomo-5β-cholane-26-sulfonate in the hamster 1189
3-Hydroxy-3-methylglutaryl coenzyme A lyase: Hereditary deficiency of 2420
Hydroxy octadecanoic acid: In serum VLDL 420
3β-Hydroxysteroid Δ^7-reductase activity: Measurement in cultured skin fibroblasts using ergosterol 2433
Hyperalphalipoproteinemia: Nonsense mutation of the CETP gene in 2145
Hypercholesterolemia
Binding affinity and particle size of LDL in 1646, 1655
Familial homozygous, characterization of mutations in the LDL receptor gene in 368
In NIDDM men, effects of inhibition of cholesterol absorption and synthesis on lipoproteins 1776
Multigenic 136
Hyperinsulinemia
Associated with multiple abnormalities of lipoprotein subclasses 1569
Effect of on expression of hypertriglyceridemia 727
Hyperlipidemia: In normal and cholestatic pregnancies 2687
Hyperlipoproteinemia: Urinary excretion of mevalonic acid in 2193
Hyperlipoproteinemia, Type II: Lp[a] levels in, effect of gemfibrozil 1298
Hypertriglyceridemia
Caused by expression of apoC-IV in transgenic mice 1510
Effect of hyperinsulinemia on expression of 727
In individuals with a single nucleotide substitution in the promoter region of the apoC-II gene 2599
Hypolipoproteinemia: Secretion rates of truncated apoB in vivo 844
Hyporetinemia: Inflammation-induced, mechanism of 962
Hypothyroidism: Effect of on LPL synthesis in adipose tissue 2332
Hypoxia: Effect of on metabolism of PAF by fetal and newborn lamb lungs 783

I

IDL: *see* **Intermediate density lipoprotein**
IL-1: *see* **Interleukin-1**
Immunoblotting: Of small HDL subclass 2461
Immunolocalization: Of LPL in human eyes 1037
Inflammation-induced hyporetinemia: Mechanism of in vitamin A-sufficient rats 962
Inhibitors: Of ACAT, effect of on secretion of apoB-100-containing lipoproteins from HepG2 cells 1
Insect fat body
Lipid transfer 1144
Lipoprotein binding site at 1345
Insect lipoprotein: Interaction with binding site at the fat body 1345
Insulin resistance: Associated with multiple abnormalities of lipoprotein subclasses 1569
Interleukin-1: Decrease in cholesterol 7α-hydroxylase mRNA levels and activity by 223
Internalization: Of LDL by a receptor-independent pathway 464
Intestinal absorption: Of cholesterol, after proximal resection of porcine small intestine 1766
Intestinal cells: Caco-2, fatty acid uptake by 336
Intracellular cholesterol transport
Analysis of hydrophobic amine inhibition of 1556
In apolipoprotein-mediated lipid removal 2473
Intracellular degradation: Of apoB-100 2202
Intracellular metabolism: Of 25-hydroxycholesterol and cholesterol in macrophages 2041
Intralipid infusion: Effects on VLDL apoB kinetics 76
Intramolecular disulfide bond formation: Role of in assembly and secretion of apoB-100-containing lipoproteins 408
Isoproterenol: Decrease in LDL receptor expression by, in rat adipose cells 237

K

Kidney cell proliferation: Biochemical mechanism 1334
Kinetics
Of apoA-II in humans by endogenous labeling 399
Of apoB metabolism, effects of LDL-apheresis on in FH 2383
Of apoB-100 2074
Of chylomicron metabolism in rats 1022
Of secretion rate of truncated apoB 844
Of vitamin A in humans 1875
Of VLDL metabolism 76

L

L35 cells: Resistance to bile acid repression of cholesterol 7α-hydroxylase in 588
Lactating monkeys: Recycling of fatty acids in 2675
Lactosylceramide: Role in proliferation of proximal tubular cells in human polycystic disease 1334
LCAT: *see* **Lecithin:cholesterol acyltransferase**
LDL: *see* **Low density lipoprotein**
LDLr protein: *see* **Low density lipoprotein receptor protein**
Lecithin-cholesterol membranes: Adsorption of bile salt taurine conjugates to 562
Lecithin:cholesterol acyltransferase
ApoA-I epitopes involved in activation of 2557
Carboxyl-terminal truncation, effects of on activity 1609
Glycosylation structure and enzyme activity 551
In mice expressing human CETP and apoA-I transgenes 1268
Possible role of esterification of oxysterols in plasma 168
Rabbit, cloning of cDNA 1616
Reaction with reconstituted HDL 1519
Remodelling of reconstituted HDL by 1962
Substrate specificity towards phosphatidylcholine in 14 vertebrates 113
Lecithin:cholesterol acyltransferase activity: Inhibition by minimally oxidized LDL 1012
Lecithin:cholesterol acyltransferase gene: Molecular defect associated with fish eye disease 35
Linear epitopes: ApoA-I antibodies specific for 884

Linoleate: Recycling into saturated and monounsaturated fatty acids in monkeys 2675
Linoleic acid: Potentiation of TNF-α-mediated oxidative injury and dysfunction of endothelial cells 123
Linoleic acid, dietary: Increase of hepatic LDLr protein and mRNA abundance of 2310
Linoleic acid, oxidized: Identified as hydroxy octadecanoic acid 420
α-Linolenic acid, dietary: Stimulation of activities of hepatic fatty acid oxidation enzymes by 448
Lipase deficiency, combined 1387
Lipases
Fluorogenic substrates for 868
Inhibition by protamine 1481
Lipid composition
In lipoproteins from LPL-deficient patients 1696
Of cholesterol-saturated micellar biles 606
Of LDL subspecies 1924
Of phosphatidylcholine bilayers, alteration by monoacylglycerols 764
Lipid efflux, apolipoprotein-mediated: Need for functional Golgi apparatus 2510
Lipid membranes: Physical effects of oxysterols on 1488
Lipid metabolism: Naturally occurring mutations in mice affecting 1387
Lipid metabolism, extracellular: PPAR and the regulation of 907
Lipid particles: Cholesteryl ester-rich, in the human cornea 1849
Lipid peroxidation 1012, 1436, 2715
Lipid phosphatidate receptors: Inhibitors of 391
Lipid remodeling: By monoacylglycerols 764
Lipid transfer activity: Effect of on LDL oxidizability 2179
Lipid transport
Maternal-fetal, in mice 347
Naturally occurring mutations in mice affecting 1387
To the developing mouse embryo, role of apoB and lipoproteins 347
Lipids, esterified: Of LDL, α-tocopherol-dependent oxidation of 2650
Lipids, low density lipoprotein: Tocopherol-mediated peroxidation of, test for inhibitors of 853
Lipids, oxidized: In LDL, relative cytotoxicities of 2018
Lipids, plasma
Effect of acute phase response on levels of 2662
Effect of atorvastatin on 2372
Lipids, stratum corneum: Function of cholesterol in 361
Lipolysis
Central role in lipoprotein metabolism and atherogenesis 693
Effect of on LDL oxidizability 2179
Of chylomicrons and VLDL, during Intralipid infusion 76
Lipolysis, isoprenaline-stimulated: In subcutaneous adipocytes 87
Lipophilic antioxidants: Tissue, simultaneous determination of 893
Lipophorin
Lipid transfer from insect fat body to 1144
Of *Triatoma infestans*, effect of phospholipids on structure of 2125
Lipopolysaccharide: Effect of on lipid and apolipoprotein levels in the baboon and mouse 2662
Lipoproteins
Abnormal, in the ANIT-treated rat 1086
ApoB containing, effect of growth hormone on assembly of 275
Apolipoprotein B-100-containing, assembly and secretion 408
Containing apoA-I and apoB, effect of ethanol on synthesis and secretion in HepG2 cells 810
During gestation in women 299
In LPL-deficient patients 1696
Uptake into cells, mediated via LRP 926
With or without apoB, in two populations at contrasting risk for myocardial infarction 508
Plasma, effect of atorvastatin on 2372
Plasma, effect of monomethylethanolamine on 2296
Plasma, NMR profile, effects of n-3 fatty acids on 1664
Plasma, subspecies and particle size, effects of gender and menopausal status on 1886
Triglyceride-rich, metabolic properties in apoC-III transgenic mice 1802
Triglyceride-rich, uptake in fibroblasts, LPL-mediated 464
Lipoprotein [a]
Apo[a] to apoB ratio 192
Concentrations in black and white Americans 2569
Elastase fragments of 1786
Levels in Type II hyperlipoproteinemia, effect of gemfibrozil on 1298
Plasma, relationship with apo[a] phenotype in black and white Americans 2569
Lipoprotein [a] levels: In cynomolgus monkeys 2029
Lipoprotein [a]-
LDL-like moiety of Lp[a] 1655
Particle size by gradient gel electrophoresis 1655
Lipoprotein assembly 2215
And growth hormone 275
Translocation of apoB-100 across the endoplasmic reticulum membrane 2202
Lipoprotein cholesterol: Maternal-derived in the fetal hamster 1246
Lipoprotein core: Physical state of cholesteryl esters in, effect on transfer 1915
Lipoprotein excretion, urinary: Effect of experimental nephrosis on 1113
Lipoprotein lipase
Cell surface, effects of RAP and heparinase on degradation of 2439
Central role in lipoprotein metabolism and atherogenesis 693
Degradation by adipocytes 2439
Dimeric, bound to triglyceride-rich lipoproteins 2394
Enhancement of binding of human TRLP to heparan sulfate by 754
Gene mutation resulting in altered postprandial response 1675
In highly vascularized structures of the eye 1037
Macrophage, role of oxidant injury on production of 799
Mediation of uptake of lipoprotein in human fibroblasts 464
Regulatory effects of, on proliferative and cytotoxic activity of NK cells 1987
Role in uptake of chylomicron remnants in vitro 1733
Translational regulation of by thyroid hormone 2332
Lipoprotein lipase activity: In brown adipose tissue 1685
Lipoprotein lipase deficiency 1387
Alterations in plasma lipoproteins and apolipoproteins in heterozygotes 640

In pregnancy, enhancement of lipid uptake by apoE in macrophages 972
Reduced cholesteryl ester transfer activity in subjects with 1696
Lipoprotein lipase gene
Heterozygosity for Asn291→Ser mutation 727
Homozygosity for two point mutations in 651
Regulatory mutations in, in patients with FCHL and CAD 2627
Lipoprotein lipase gene mutations: In FCH 309
Lipoprotein metabolism
Central roles of LPL and lipolysis in 693
In heterozygotes for truncated apoB 844
Lipoprotein production, hepatic: In the chick, effect of cholesterol feeding 493
Lipoprotein receptors 1406
Lipoprotein secretion: From HepG2 cells, effect of inhibition of ACAT on 1
Lipoprotein secretion, hepatic: Effect of experimental nephrosis on 1113
Lipoprotein subclasses: In hyperinsulinemic subjects 1569
Lipoprotein synthesis: In the yolk sac 347
Lipoprotein, insect
Interaction with binding site at the fat body 1345
Lipid transfer from insect fat body to 1144
Liposarcoma cell line, SW872: Secretion of CETP in response to cholesterol 1162
15-Lipoxygenase: Human recombinant, oxidation of LDL by 2650
Liver canalicular plasma membrane vesicles: ATP-dependent translocation of phosphatidylcholine in 1125
Low density lipoprotein
Antioxidant and prooxidant activity of α-tocopherol in 1436
Apheresis, effect on metabolic parameters of apoB in heterozygous FH 2383
Binding of ethyl oleate to 1449
Cholesterol, effects of FCH on 136
Content of antioxidants 1936
Copper-oxidized, free and esterified oxysterols in 320
Formation of oxysterols during oxidation of 2361
Free from water-soluble antioxidants, isolation of 2715
Granule-bound, scavenger receptor-mediated phagocytosis of 2155
In vivo metabolism 1646
Lipid content of different fractions 1625
Macrophage oxidative modification of 835
Modified, aggregation and fusion of 2638
Oxidation and glycation, effect of α-tocopherol on 1978
Oxidation by recombinant 15-lipoxygenase 2650
Oxidative modification of, effect of homocysteine on 1591
Oxidatively modified, detection using a monoclonal antibody 45
Oxidizability, effect of lipid transfer activity and lipolysis on 2179
Oxidized, inhibition of LCAT activity by 1012
Particle size and binding affinity in moderate hypercholesterolemia 1646
Physical state of cholesteryl esters in, effect on cholesteryl ester transfer 1915
Proton NMR of 1289
Receptors in adipose tissue in diabetes 229
Reduction of levels in normal and WHHL rabbits, by gene transfer of APOBEC-1 2001
Relation of size to lipid composition 1924
Role of oxidized lipids in cellular injury 2018
Sialic acid content, relationship to catabolic rate of dense LDL 1625
Subspecies, conformational changes in 1924
Tissue clearance and uptake in vivo, effect of ethinyl estradiol 1812
Low density lipoprotein clearance: In sheep adrenal, liver, and brain 1953
Low density lipoprotein lipids: Tocopherol-mediated peroxidation of, test for inhibitors of 853
Low density lipoprotein precursors: Increased clearance of, in patients with heterozygous familial defective apoB-100 2074
Low density lipoprotein receptor 2586
Activity in HepG2 cells, effects of cyclosporin on 179
Defects in human T lymphocytes, detection of 1377
Effect of ethinyl estradiol on 1812
Expression in rat adipose cells, effect of isoproterenol 237
Expression in rat adipose tissue, effects of streptozotocin-induced diabetes on 229
Functional, lack of in brain 1953
Gene expression in HepG2 cells, activation by hepatocyte growth factor 985
Macrophages deficient in, LDL oxidation by 835
Regulation of gene expression 534
Role in chylomicron remnant removal by the liver 197
Uptake of recombinant form of apo[a] by 518
Low density lipoprotein receptor gene: Frequency of mutations in 368
Low density lipoprotein receptor protein: Hepatic, effect of dietary fatty acids on 2310
Low density lipoprotein receptor-like protein: Role in chylomicron remnant removal by the liver 197
Low density lipoprotein receptor-related protein: Role of in uptake of chylomicrons and β-VLDL into cells 926
Low density lipoprotein subclasses: In normoglyceridemic relatives of NIDDM patients 1569
Low density lipoprotein uptake
By human lymphocyte subsets 1363
Measured using double-fluorescence staining 1363
LPL: *see* **Lipoprotein lipase**
LRP: *see* **Low density lipoprotein receptor-related protein**
Lung surfactant: Differential activity of SP-B and SP-C in interactions with phospholipids 1749
Lung, fetal and newborn lamb: Metabolism of PAF by 783
LY295427: A novel hypocholesterolemic agent 2586
Lymphocytes: Method for detection of LDL receptor defects in 1377
Lysophosphatidic acid receptors: Expressed in *Xenopus* oocytes 391
Lysosomal acid lipase: Gene mutation leading to Wolman disease 1761
Lysosomal acid lipase, murine: Cellular specific expression of 937
Lysosomal cholesterol: Cell-free transfer to phospholipid vesicles 54
Lysosomal degradation
Of apoE5 in cultured fibroblasts 1632
Of cholesteryl oleate in human fibroblasts 2271
Lysosomal targeting: Of ceramide-labeled sphingomyelin, in in situ assay of acid sphingolipid hydrolase activity 2525
Lysosome-derived fatty acids: Transport of 2271

M

Macrophage(s)
Intracellular metabolism of 25-hydroxycholesterol and cholesterol in 2041
Metabolism of oxysterols by 320
Oxidative modification of LDL by 835
Macrophage lipid uptake: In LPL deficiency during pregnancy 972
Macrophage lipoprotein lipase: Role of oxidant injury on production of 799
Macrophage phenotype: Abnormal in a normolipidemic subject with planar xanthomas 1422
Malic enzyme gene: Responsiveness to triiodothyronine, regulation by clofibrate 2088
MAPK: *see* **Mitogen-activated protein kinase**
Mass isotopomer distribution: Of fatty acids synthesized from ethanol 262
Mast cell granule remnants: Bound to LDL, scavenger receptor-mediated phagocytosis of 2155
Matrix association regions: Of the human apoB gene, function in transgenic mice 2117
MCT: *see* **Medium-chain triglycerides**
mdr2 P-glycoprotein 1125
Mediation of phospholipid and cholesterol secretion by 1065
Medium chain triacylglycerols
Incorporation into phospholipid bilayers 773
Usefulness in body weight control 708
Membrane topology: Of internal apoB polypeptides 2215
Membrane translocation: Of apoB-100 2202
Membranes, lecithin-cholesterol: Adsorption of bile salt taurine conjugates to 562
Membranes, lipid: Physical effects of oxysterols on 1488
Membranes, subcellular: Sterol exchange between 1862
Menopausal status: Effect of on plasma lipoprotein subspecies and particle sizes 1886
Metabolic properties
Of elastase-generated fragments of apo[a] and Lp[a] 1786
Of triglyceride-rich proteins from human and mouse apoC-III transgenic mice 1802
Methylenehexadecenoic acids: Inhibition of a (Z)-9 desaturase by 1503
Mevalonic acid: Urinary excretion as an indicator of cholesterol synthesis 2193
Mevinolin: Effect on LDL gene expression 534
Microsomal triglyceride transfer protein: In HepG2 cells 1468
Mitochondria: Side chain oxidation of C27 bile acid intermediates in 2550
Mitogen-activated protein kinase: Role in proliferation of proximal tubular cells in human polycystic disease 1334
Mobilization
Of fatty acids from adipose tissue 290
Of individual fatty acids in humans 1842
Model bile: Cholesterol crystallization pathways in 606
Model physiological systems: ^{13}C-NMR of fatty acid ethyl esters in 1449
Modelling: Of cellular sterol trafficking 2041
Molecular defect: In the LPL gene 727
Molecular species
Of diacylglycerols and phospholipids in Con A-stimulated thymocytes 2098
Of individual phospholipids, quantitation by UV absorption measurements 2450
Of liver and VLDL triacylglycerols 262
Of phosphatidylcholines, substrate specificity of LCAT in vertebrates 113
Monoacylglycerols: Lipid remodeling by 764
Monoclonal antibodies
For linear epitopes of apoA-I 884
Localization of apoA-I epitopes involved in LCAT activation 2557
Use of in structure-function relationships of human CETP 22
Monoclonal antibody: Detection of oxidized LDL using 45
Monomethylethanolamine: Effect of on plasma triacylglycerols, apoB, and apoA-I in rats 2296
Monounsaturated fatty acids: Recycling of linoleate, alpha-linolenate, and docosahexaenoate into, in monkeys 2675
Multigenic hypercholesterolemia 136
Murine lysosomal acid lipase
Cellular specific expression of 937
Tissue specific distribution of 937
Mutation(s)
A→G, in intron I of the hepatic lipase gene 1213
Frequency in the LDL receptor gene 368
In the CYP27 gene causing CTX 631
In the cytochrome $P450_{27}$ gene 926
In the LPL gene 651
In the LPL gene (Asn291Ser) 1675
In the lysosomal acid lipase gene 1761
In the promoter region of the apoC-II gene 2599
Naturally occurring in mice, that affect lipid metabolism and transport 1387
Nonsense of the CETP gene in hyperalphalipoproteinemic subjects 2145
Of the sterol-27-hydroxylase gene that cause CTX 1459
Myocardial infarction: Risk for 508

N

α-Naphthylisothiocyanate: Rats treated with, an animal model of intrahepatic cholestasis 1086
Neomycin: Inhibition of secretion of apo[a] by 2055
Neutral lipid
Effect of on accretion and organization of DPPC in surface films 1278
In *Paramecium primaurelia*, age-related changes in 1207
Neutrophils: Effect of TNF-α on metabolism of arachidonic acid in 1234
Nile red staining: Of neutral lipids in *Paramecium primaurelia* 1207
NK cells: Regulatory effects of LPL on proliferative and cytotoxic activity of 1987
Non-insulin-dependent diabetes: In hypercholesterolemic men, effects of inhibition of cholesterol absorption and synthesis on lipoproteins 1776
Nonsense mutation: Of the CETP gene in hyperalphalipoproteinemic subjects 2145
Norcholansulfonate: In the study of cholate transport 1045
Nuclear magnetic resonance
Analysis of unsaturated C27 sterols by 1529
^{13}C, of fatty acid ethyl esters, in model physiological systems 1449

^{31}P, absolute quantitation of tissue phospholipids by 2251
Profiles of plasma lipoproteins, effect of fish oil on 1664
Nucleotide sequence
Of fragments of the LDL receptor gene 368
Of mutant allele of CTX 631
Of the 3' flanking region of the CYP27 gene 662

O

Ocular tissue: LPL in 1037
Oleic acid
Derived from lysosomal degradation of cholesteryl oleate in human fibroblasts 2271
Effect of on secretion of apoB from HepG2 cells 1198
Oocytes: Inhibitors of lysophosphatidic acid receptors in 391
Oral fat load: Altered response to in subjects with a frequently occurring LPL gene mutation 1675
α-Oxidation: Of phytanic acid in Refsum disease and rhizomelic chondrodysplasia punctata 1137
Oxidation
Of LDL by peroxynitrite, myoglobin, and copper 2361
Of LDL, effect of α-tocopherol on 1978
Of LDL, lipolysis-generated fatty acids as inhibitors of 2179
Oxidation, beta: For bile acid biosynthesis in mitochondria 2550
Oxidation, side chain: Of C27 bile acid intermediates 2550
Oxidative fragmentation: Of phospholipids 2608
Oxidative injury: Of endothelial cells 123
Oxidative modification
Of LDL by macrophages 835
Of LDL, effect of homocysteine on 1591
Oxidative stress
Effect on macrophage LPL 799
Ubiquinol/ubiquinone ratio as a possible marker 67
Oxidized lipids
In LDL, relative cytotoxicities of 2018
In serum VLDL 420
Oxidized low density lipoprotein
Detection using a monoclonal antibody 45
Inhibition of LCAT activity by 1012
Oxysterols in 320
2,3-Oxidosqualene cyclase
Inhibitor of, effects on cholesterol biosynthesis in HepG2 cells 148
Role in the regulation of intracellular cholesterol homeostasis 148
Oxysterol(s)
Cellular levels, modulation by LY295427, a hypocholesterolemic agent 2586
Esterification in human serum 168
Formation during oxidation of LDL 2361
In copper-oxidized LDL 320
In the Smith-Lemli-Opitz syndrome 2280
Physical effects on lipid membranes 1488

P

PAF: *see* **Platelet activating factor**
Palmitic acid, dietary: Decrease of hepatic LDLr protein and mRNA abundance by 2310
N-palmitoyl-serine phosphoric acid: Inhibitor of lipid phosphatidate receptors 391
N-palmitoyl-tyrosine phosphoric acid: Inhibitor of lipid phosphatidate receptors 391
Pancreatic lipase: Inhibition by protamine 1481
Paramecium primaurelia: Age-related changes in neutral lipid content 1207
Particle size
Of chylomicrons, effect of on plasma clearance 2696
Of LDL in moderate hypercholesterolemia 1646
Of Lp[a], Lp[a]-, and LDL 1655
Pedigrees: Of homozygous FH patients 368
PEMT2 gene: *See* **Phosphatidylethanolamine N-methyltransferase-2 gene**
Peroxidation: LDL, tocopherol-mediated peroxidation of, screening test for inhibitors of 853
Peroxisomal biogenesis: Disorders, implication of epoxide hydrolase 159
Peroxisome biogenesis disorders 2288
Peroxisome proliferator-activated receptor: Role in mediating effects of fibrates and fatty acids on gene expression 907
Peroxisomes
Activation of phytanic acid in, by long-chain acyl-CoA synthetase 2288
Carnitine medium/long chain acyltransferases in 2616
Epoxide hydrolase in 159
Phytanic acid oxidation in 1137
Rat, formation of Δ^{22} bile acids in 540
Side chain oxidation of C27 bile acid intermediates in 2550
Phagocytosis: Scavenger receptor-mediated, of mast cell granule remnant-bound LDL 2155
Phase behavior
Of artificial stratum corneum lipids 361
Of isolated skin lipids 999
Phenotypic expression: Of hepatic lipase gene mutations 825
Phosphatidic acid: Production from phosphoinositides and phosphatidylcholines 2098
Phosphatidylcholine
ATP-dependent translocation in rat liver canalicular membrane vesicles 1125
Benzoolysis of 1224
Bilayers, alteration of lipid composition of, by monoacylglycerols 764
Bilayers, molecular mobility of, alteration by monoacylglycerols 764
Contribution to the production of phosphatidic acid by Con A stimulation of thymocytes 2098
Oxidized, in human plasma 2608
Plasma, substrate specificity of LCAT towards 113
Phosphatidylethanolamine N-methyltransferase-2 gene: Murine, characterization of 2341
Phosphoinositides: Contribution to the production of phosphatidic acid by Con A stimulation of thymocytes 2098
Phospholipase A_2
Role of in degradation of DPPC by granular pneumocytes 1057
Treatment of *Triatoma infestans* lipophorin, effect on structure 2125
Phospholipase activity: In human neutrophils 1234
Phospholipid(s)
Analogs, influence on interdigitated phases in bilayers 2305
Biliary secretion of 1065

Effect of on structure of *Triatoma infestans* lipophorin 2125
Enriched with arachidonic, turnover in neutrophils, induced by TNF-α 1234
HDL, role in efflux of cell cholesterol to serum 1704
HPLC of 684
Hydroperoxy, metabolism of in HepG2 cells 2351
Interaction with surfactant proteins 1749
Solubility of MCT in 773
Tissue, absolute quantitation of by ^{31}P NMR spectroscopy 2251
With a carbonyl-terminated *sn*-2 chain, influence on interdigitated bilayers 2305
Phospholipid biosynthesis: Characterization of PEMT2 gene involved in 2341
Phospholipid efflux: Apolipoprotein-mediated, need for functional Golgi apparatus 2510
Phospholipid hydroperoxide glutathione peroxidase 2351
Phospholipid molecular species: Quantitation by UV absorption measurements 2450
Phospholipid translocation assay 1125
Phospholipid vesicles
Binding of ethyl oleate to 1449
Cell-free transfer of cholesterol from lysosomes to 54
Photoaffinity labeling: With 11,11-azistearate 739
Physical characteristics of LDL particles 1924
Phytanic acid: Activation in rat liver peroxisomes, catalyzed by long-chain acyl-CoA synthetase 2288
Phytanic acid oxidation: In peroxisomes in Refsum disease and rhizomelic chondrodysplasia punctata 1137
Pichia pastoris: Expression and secretion of rabbit CETP by 599
Planar xanthomas: In a normolipidemic subject with scavenger receptor overexpression 1422
Plant sulfoquinovosyldiacylglycerols: Isolation by solid phase extraction and HPLC procedures 1372
Plasma carotenoids: Correlation with concentration in LDL 1935
Plasma clearance: Of chylomicrons and remnants 2696
Plasma lipids
Effect of atorvastatin on 2372
Gender differences in 1886
Plasma lipoprotein [a]
Relationship with apo[a] phenotype in black and white Americans 2569
Plasma lipoproteins
Alterations before age 40 in heterozygotes for LPL deficiency 640
Effect of atorvastatin on 2372
Effect of monomethylethanolamine on 2296
NMR profile, effects of n-3 fatty acids on 1664
Subspecies and particle size, effects of gender and menopausal status on 1886
Plasma tocopherols: Correlation with concentration in LDL 1936
Plasmalogen biosynthesis 0738
Plasmalogen phospholipid species: Quantitation by UV absorption measurements 2450
Plasmanyl desaturase: Simple assay for 2706
Plasminogen mRNA: Expression in cynomolgus monkey liver and extrahepatic tissues 2029
Platelet activating factor: Metabolism of by perinatal lamb lungs 783
Platelet aggregation: Effect of a *trans* isomer of arachidonic acid on 2244
Pneumocytes, granular: Degradation of DPPC in 1057
Polychlorinated biphenyls: Uptake and transport in Caco-2 cells 950
Polycystic kidney disease: Proliferation of proximal tubular cells in, role of lactosylceramide and MAPK 1334
Polymerase chain reaction, inverse: In sequencing 3′ flanking region of the CYP27 gene 662
Postheparin lipases: During gestation in women 299
Postprandial chylomicron metabolism: In normolipidemic subjects with an LPL gene mutation 1675
Postprandial response: In carriers of a common LPL mutation 1675
Postprandial very low density lipoprotein: Metabolism of 76
PPAR: *see* **Peroxisome proliferator-activated receptor**
Pregnancy
Cholestatic, serum squalene and noncholesterol sterols in 2687
LPL deficiency in, macrophage lipid uptake 972
Pregnant monkeys: Recycling of fatty acids in 2675
Proapolipoprotein A-I
Human recombinant, overexpression and characterization in *E. coli* 1519
Secretion of wild-type and mutant forms using baculovirus-mediated Sf-9 cell expression 673
Promoter activity: ApoA-I, increase by glucocorticoid 2232
Promoter sequences: Low density lipoprotein receptor protein 2324
Prooxidant activity: Of α-tocopherol in plasma and LDL 1436
Protamine: Inhibition of pancreatic and carboxylester lipases by 1481
Protein phosphorylation: Modulation of macrophage scavenger receptor transport by 574
Protein retinoylation: In rat liver, kidney, and lung 1971
Proteoglycans: Mediation of adipocyte degradation of LPL by 2439
Proteoglycans, cell surface: Binding of apoE5 to 1632
Proton nuclear magnetic resonance: Of LDL 1289
Proximal tubular cells: Proliferation in polycystic disease, role of lactosylceramide and MAPK 1334
Pulmonary surfactant: Adsorption, role of different hydrophobic constituents in 790
Pulmonary surfactant protein A: Effect of on accretion and organization of DPPC in surface films 1278

Q

Quantitative trait loci: For sterol and lipid metabolism 1406
Quasi-elastic light-scattering spectroscopy: In model biles 606

R

Racial differences: In concentrations of Lp[a] 2569
RAP: *see* **Receptor-associated protein**
Rate zonal flotation: Of modified LDL particles 2638
Reactive oxygen intermediates: Effect on macrophage LPL production and response 799
Receptor: VLDL, mediation of the uptake of chylomicron remnants by in vitro 1733

Receptor-associated protein: Effect of on degradation of cell surface LPL 2439
Receptor-associated protein-sensitive receptors: Mediation of adipocyte degradation of LPL by 2439
Receptors, HepG2 cell surface: Regulation of binding of VLDL to, by apoE 1316
Recombinant apolipoprotein [a]: Cellular uptake and degradation 518
Recombinant proapoA-I 1519
Refsum disease: Phytanic acid oxidation in peroxisomes 1137
Regulation
Of apoB secretion by the liver, role of cholesterol 439
Of apoB secretion from HepG2 cells 1198
Of arterial vasomotion, effect of sphingosine 1601
Of cholesterol biosynthesis in HepG2 cells, effects of a 2,3-oxidosqualene cyclase inhibitor on 148
Of cholesterol synthesis in nerve and liver 2502
Of extracellular lipid metabolism 907
Of FPP synthase by SREBP 1712
Of LDL receptor transcription 534
Of LDLr protein and mRNA by fatty acids 2310
Of LPL activity in brown adipose tissue 1685
Of macrophage LPL production 799
Of proliferative and cytotoxic activity of NK cells by LPL 1987
Of receptor binding of VLDL by apoE concentration 1316
Of retinol-binding protein 2492
Of the human cholesterol 7α-hydroxylase gene in HepG2 cells 1831
Posttranscriptional of LDL receptor expression in adipocytes 237
Tissue-specific, of enzymes of cholesterol biosynthesis 2502
Translational, of LPL by thyroid hormone 2332
Regulatory mutations: Of the LPL gene in FCHL and CAD 2627
Retinoic acid: Biosynthesis from ß-carotene in ferret intestine 482
Remnants, chylomicron: In vitro mediation of uptake by the VLDL receptor 1733
Reporter gene expression: ApoC-II in HepG2 cells 2599
Retinal pigment epithelium: Retinyl ester hydrolase activity in 1947
Retinoids: In ferret intestinal mucosa 482
Retinol, plasma: Effects of acute inflammation on in vitamin A-sufficient rats 962
Retinol-binding protein
Effects of acute inflammation on in vitamin A-sufficient rats 962
Regulation in rats 2492
Retinoylation: Of proteins in rat liver, kidney, and lung 1971
11-*cis* Retinyl ester: Hydrolysis in retinal pigment epithelium 1947
Retinyl ester: Postprandial response in carriers of an LPL mutation 1675
Retinyl ester hydrolase activity: In bovine liver and retinal pigment epithelium 1947
Retinyl palmitate, ^{13}C- labeled: Study of plasma kinetics of vitamin A in humans 1875
Reverse cholesterol transport: In mice expressing human CETP and apoA-I transgenes 1268
Review article
Apolipoprotein-mediated removal of cellular cholesterol and phospholipids 2473
Central roles of LPL and lipolysis in lipoprotein metabolism and atherogenesis 693
Cholesterol biosynthesis in the Smith-Lemli-Opitz syndrome 1169
Naturally occurring mutations in mice affecting lipid transport and metabolism 1387
Role of cholesterol in regulating apoB secretion by the liver 439
Role of PPAR in mediating effects of fibrates and fatty acids on gene expression 907
Usefulness of dietary MCT in body weight control 708
Rhizomelic chondrodysplasia punctata: Phytanic acid oxidation in peroxisomes 1137
mRNA
Aberrantly spliced, of the HL gene 2420
Cholesterol 7α-hydroxylase, effect of endotoxin, TNF, and IL-1 on levels and activity 223
Hepatic LCAT, in cholesterol-fed rabbits 1616
LPL, in human and bovine ocular tissues 1037
Murine lysosomal acid lipase, tissue and cellular specific expression of 937
Of enzymes in cholesterol synthesis, expression of 2502
Of LDLr protein, effect of dietary linoleic acid and palmitic acid on 2310
RBP in the liver and kidneys of vitamin A-sufficient rats, effect of acute inflammation on 962
Scavenger receptors, levels in monocytes and macrophages 1422
Splicing, disruptions by mutations of the CYP27 gene 1459

S

Saturated fatty acids: Recycling of linoleate, α-linolenate, and docosahexaenoate into, in monkeys 2675
Scavenger receptor: Modulation of, by protein phosphorylation 574
Scavenger receptor overexpression: In a normolipidemic subject with planar xanthomas 1422
Scavenger receptor proteins: Cell surface expression 1422
Scavenger receptor-mediated phagocytosis: Of mast cell granule remnant-bound LDL 2155
Sciatic nerve: Regulation of cholesterol synthesis in 2502
Secretion
Of apoB and triglyceride in HepG2 cells 1468
Of human proapoA-I 673
Secretion rate
Of apoB-48 and apoB-100 210
Of truncated apoB 844
Serum amyloid A: Binding and transport of cholesterol into aortic smooth muscle and HepG2 cells 2109
Serum sterols: Changes in rats treated with 7-dehydrocholesterol reductase inhibitors 1325
Sex pheromone: Of *Spodoptera littoralis*, biosynthesis of 1503
Short-chain oxidized phosphatidylcholine: In human plasma 2608
Sialic acid
Acid and enzymatic hydrolysis of GM1 382
And the metabolism of LDL 1625
Sialidase: Release of sialic acid by 382
Sitostanol

As tracer for hepatic transport and secretion of unesterified cholesterol 15
Hepatic transport and secretion 15
Skin barrier: Model membrane approach for 999
Skin lipids: Isolated, phase behavior of 999
Small intestinal sterol absorption 2405
Small intestine: Proximal resection of, adaptation of cholesterol absorption 1766
Smith-Lemli-Opitz syndrome 1325
Abnormal cholesterol biosynthesis in 1169
Cholesta-5,7,9(11)-trien-3β-ol in plasma of patients with 2280
New method for diagnosis of 2433
Smooth muscle cells: Of synthetic phenotype, scavenger receptor-mediated phagocytosis of granule-bound LDL by 2155
Solid phase extraction: Semi-preparative isolation of plant sulfoquinovosyldiacylglycerols by 1372
SP-B: *see* **Surfactant protein**
SP-C: *see* **Surfactant protein**
Sphingomyelinase
Acid, in situ assay of 2525
Effect of on arterial vasomotor regulation 1601
Sphingosine: Effect of on arterial vasomotor regulation 1601
Splice site mutation: Of the CETP gene 2065
Squalene
Accumulation in liver and sciatic nerve of rats exposed to tellurium 2502
Serum, in normal and cholestatic pregnancy 2687
SREBP: *see* **Sterol regulatory element binding protein**
Stable isotopes
Use of in measurement of apoA-II kinetics in humans 399
Use of in study of clearance of LDL precursors 2074
1-Stearoyl-2-capryl-*sn*-glycerol-3-phosphatidylcholine: Interdigitated bilayers formed by 2305
Sterol 27-hydroxylase: Partial deletion of the gene, in CTX 662
Sterol-27-hydroxylase gene
Mutations of that cause CTX 1459
Sterol 27-hydroxylase metabolic pathway: 7α-Hydroxylation of intermediates in 1356
Sterol 27-hydroxylase, mitochondrial: Role in regulation of LDL receptor activity 179
Sterol absorption: In different small intestinal brush border membrane models 2405
Sterol carrier protein-2: Modulation of fibroblast membrane sterol kinetic domains by 1862
Sterol exchange: Between subcellular membranes 1862
Sterol hydroperoxide formation: In patients with Smith-Lemli-Opitz syndrome 2280
Sterol kinetic domains: In fibroblast membranes 1862
Sterol regulatory element binding protein: Regulation of FPP synthase by 1712
Sterols
Serum, changes in rats treated with 7-dehydrocholesterol reductase inhibitors 1325
Sources of in the hamster fetus, placenta, and yolk sac 1246
Noncholesterol, in normal and cholestatic pregnancy 2687
Transport through the liver, use of sitostanol as a tracer 15
Streptozotocin-induced diabetes: Effects of on LDL receptor expression in rat adipose tissue 229
Structure-function relationships: Of human CETP 22
Sulfonate analogues: Of ursodeoxycholic acid, effect of on biliary lipid secretion 1181
Sulfoquinovosyldiacylglycerols, plant: Isolation by solid phase extraction and HPLC procedures 1372
Surface charge properties: Of apoA-I containing nascent HDL complexes 1076
Surface films: Accumulation of dipalmitoylphosphatidylcholine in 1278
Surface tension-time adsorption isotherms: For calf lung surfactant extract 790
Surfactant constituents: Roles in adsorption 790
Surfactant proteins: SP-B and SP-C, differential activity in interactions with phospholipid 1749
Surfactant, pulmonary: Adsorption, role of different hydrophobic constituents in 790
Synthase, farnesyl diphosphate: Regulation by SREBP 1712

T

Tangier disease: Cholesterol transport in 2473
Tellurium: Effect of on cholesterol synthesis by liver and sciatic nerve 2502
(E)-11-Tetradecenoic acid: Inhibition of (Z)-9 desaturation of 1503
TGLP: *see* **Triglyceride-rich lipoproteins**
Thermogenesis 1685, 1907
Thymocytes, rat: Production of phosphatidic acid from phosphoinositides and phosphatidylcholines 2098
Thyroid hormone: Translational regulation of LPL by 2332
Tissue expression: Of apo[a] mRNA and plasminogen mRNA 2029
Tissue phospholipids: Absolute quantitation of by ^{31}P NMR spectroscopy 2251
TNF: *see* **Tumor necrosis factor**
α-Tocopherol
Antioxidant and prooxidant activity of, in plasma and LDL 1436
Effect of on LDL oxidation and glycation 1978
Lack of correlation between plasma and LDL contents 1936
Role in lipoxygenase-induced LDL oxidation 2650
γ-Tocopherol: Correlation between plasma and LDL contents 1936
Tocopherol-mediated peroxidation: Of LDL lipids, test for inhibitors of 853
Tocopherols: Tissue, determination of 893
Tocotrienols: Tissue, determination of 893
Topology: Of apoA-I 2215
Total parenteral nutrition: Retinol and retinol-binding protein during 2492
Transgenic mice
Expressing human CETP and apoA-I 1268
Function of the human apoB gene matrix association regions 2117
Human and mouse apoC-III, metabolic properties of triglyceride-rich lipoproteins in 1802
Hypertriglyceridemia in 1510
Transgenic rats
Experimental nephrosis in 1113
Human apoA-I, role of HDL phospholipid in efflux of cell cholesterol to whole serum 1794
Translocation
Of apoB 2215

Of apoB-100 across the endoplasmic reticulum membrane 2202
Transporter, ATP-dependent: Of phosphatidylcholine in canalicular membrane vesicles 1125
Triacylglycerol
Long-chain, effect of, on incorporation of MCT into phospholipid bilayers 773
Plasma, reduction of by monomethylethanolamine in rats 2296
Synthesis and secretion 262
Triacylglycerol analogs, fluorogenic: Substrates for determination of lipase activities 868
Triacylglycerol-rich lipophorin: Mosquito fat body, lipid transfer to 1144
Triatoma infestans: Lipophorin, effect of phospholipids on structure of 2125
Triglyceride
Control of cellular levels of 1712
In lipoproteins during gestation 299
Levels in Type II hyperlipoproteinemia 1298
Medium chain, usefulness in body weight control 708
Relationship to apoB secretion in HepG2 cells 1198
VLDL, in vivo measurement of secretion rate 210
Triglyceride emulsion
Accumulation of large VLDL during intravenous infusion of 76
Triglyceride enrichment: Of HDL, a factor in its decrease in acute phase response 2662
Triglyceride secretion: Inhibition in HepG2 cells 1468
Triglyceride-rich lipoproteins
Binding to heparan sulfate, enhancement by LPL 754
Dimeric LPL bound to 2394
Metabolic properties in apoC-III transgenic mice 1802
Plasma clearance of 2696
Uptake by macrophages in LPL deficiency during pregnancy 972
3α,7α,12α-Trihydroxy-24-nor-5β-cholan-23-sulfonate: Synthesis of and suitability for study of cholate transport 1045
Triiodothyronine: Regulation of malic enzyme responsiveness to, by clofibrate 2088
Truncated apolipoprotein B: Correlation between length and secretion rate 844
Truncated lecithin:cholesterol acyltransferase species 1609
Tumor necrosis factor: Decrease in cholesterol 7α-hydroxylase mRNA levels and activity by 223
Tumor necrosis factor-α
Effect of on metabolism of arachidonic acid in human neutrophils 1234
Mediation of oxidative injury and dysfunction of endothelial cells 123
Turnover
Of apoA-II in humans 399
Of apoB-48 and apoB-100 in VLDL fractions 210
Of chylomicrons in rats 1022

U

Ubiquinol/ubiquinone ratio: Human plasma, as a possible marker of oxidative stress 67
Ubiquinols: Tissue, determination of 893
Ubiquinones: Tissue, determination of 893
UDCA: *see* **Ursodeoxycholic acid**
Ultrastructural detection: Of lipid particles in the human cornea 1849
Ultraviolet absorption spectra: Of choline glycerophospholipid molecular species 2450
Uncoupling protein mRNA: Adrenergic induction of in human adipocytes 1907
Unesterified cholesterol: Hepatic transport and secretion traced by sitostanol 15
Unsaturated C27 sterols: Analysis by nuclear magnetic resonance spectroscopy 1529
Urinary excretion: Of mevalonic acid 2193
Urinary lipoprotein excretion: In nephrotic apoA-I transgenic rats 1113
Ursodeoxycholic acid
In vitro synthesis of Δ^{22}-UDCA from, by peroxisomes 540
Sulfonate analogues, effect of on biliary lipid secretion 1181

V

Very low density lipoprotein
Beta, uptake into cells, mediation by hepatic lipase 926
Composition of subfractions 1897
Dietary oxidized lipids incorporated into 420
Dimeric LPL bound to 2394
Lacking apoE, isolation and characterization of two distinct species 1897
Postprandial, metabolism of 76
Probing structure and function by synthetic amphipathic helical peptides 1099
Regulation of binding to HepG2 cell surface by apoE concentration 1316
Subfractionation of 76
Triacylglycerols, contribution of de novo fatty acid synthesis 262
Very low density lipoprotein receptor: Mediation of uptake of human chylomicron remnants by, in vitro 1733
Very low density lipoprotein secretion: Reduction by monomethylethanolamine 2296
Very low density lipoprotein triglyceride: In vivo measurement of secretion rate 210
Vesicles, phospholipid: Cell-free transfer of lysosomal cholesterol to 54
Vesicular assay: To study cholesterol crystallization 877
Viral inhibition: Of n-docosanol 2167
Vitamin A: Plasma kinetics in humans 1875
Vitamin A deficiency 2492
Vitamin E
Endogenous in LDL 2715
Role in lipoxygenase-induced LDL oxidation 2650
VLDL: *see* **Very low density lipoprotein**

W

Watanabe heritable hyperlipidemic rabbits: Hepatic gene transfer of APOBEC-1 2001
WHHL: *see* **Watanabe heritable hyperlipidemic rabbits**
White adipocytes: Subcutaneous, expression of β3-adrenoceptors in 87
Wolman disease 937
Gene mutation for lysosomal acid lipase 1761

X

X-ray diffraction pattern: Of skin lipids 999
Xanthomas: In a normolipidemic subject with scavenger receptor overexpression 1422

Y

Yolk sac: Lipoprotein synthesis in 347

Z

Zellweger syndrome 159
